

## REV. A. C. KEMPTON VICTIM OF DEATH

Popular Pastor of the Baptist Church Passed Away at Noon.

## HIS SUFFERING OVER

Succumbed to a Fever Which Seized His Brain About Three Weeks Ago.

## FUNERAL BE HELD TOMORROW

Rev. A. C. Kempton, pastor of the Baptist church of this city, died at his home, 202 N. High street, at 12:30 this afternoon after an illness of nearly three weeks, aged thirty years. Thus ends a brief, but brilliant life whose possibilities for consecrated usefulness can hardly be estimated.

Arthur C. Kempton was born at Margaree, Nova Scotia, May 6, 1870. He attended the common schools in his native city, then Horton academy and later Acadia college, from which he was graduated in 1890. He then entered upon a three years' course in the Rochester Theological seminary and during his seminary days was often called upon to preach.

Was Interested in Medicine. While a student at Acadia college he became interested in the science of medicine, and half determined to follow that profession, but as the needs of the benighted in foreign lands dawned upon him he felt himself called to become a healer of both mind and body, a medical missionary. When he had completed his theological course he applied to the board of missions and was recommended by the well-known Dr. Strong to the position of pastor and president of a Baptist college in Japan. The board was not just then prepared to send out a new man and Mr. Kempton received a call from a church at Eau Claire, Wis., which he accepted.

Broad Field for His Talent. Here was a broad field for the talented and enthusiastic young clergyman. The church was run down and the members lukewarm in their interests. He brought to bear upon his work the energy that always characterized him, and succeeded so brilliantly that he was convinced that his work lay here in his native land, rather than in foreign fields. During his three and a half years' pastorate the membership of his church was doubled. He instituted a mission, built a chapel and conducted the work of the church along progressive lines. In another sense he was greatly blessed, for here he met the young woman destined to be his guide, counselor and friend, a never-failing source of sympathy and help. He and Miss Anna Wyman was married shortly after he was called to the local Baptist church. The ceremony was performed by his brother, Rev. Judson Kempton, who was with him during his sickness and remained to close his dying eyes.

Came Here Three Years Ago. Three years ago he entered upon his pastoral work in this city, with the same zeal and energy that he had shown elsewhere. The duties adhering to a pastorate of a society whose membership is nearly five hundred are not light, but he assumed them all, social, financial and ecclesiastical as though no obstacle could block his path.

He had in a marked degree the courage of his convictions, and when he recognized an evil he recognized it at the same time his duty to denounce it. A year ago he commenced a series of sermons on local vices, a crusade that called for no small share of moral courage. To secure reliable data he was obliged to visit many places where ministers of the gospel are not often seen, but he sought his information in a considerate and gentlemanly manner and was invariably accorded courteous treatment. While denouncing sin in the most emphatic manner he had only tender compassion and deep sympathy for the sinner.

Seized With a Fever. On the street he was the cheery and courteous friend, alive to all of the vital issues of the hour. In the pulpit he was the fearless champion of truth as he saw it, the brilliant word artist, who, with a few deft touches could place before his hearers' mental vision the same, vivid picture that floated before his own ardent soul. Thus he won the admiration and friendship of all whom he met, the intense affection of many, for his gifts were such as were recognized alike by the wise and the simple.

Three weeks ago he was seized by a fever which took for its field of operations, his brain, that active brain so rich in natural gifts, so full of resource. The most devoted affection, the best medical skill watched at his bedside, but the fiat had gone out, and his able man, after days of ineffectual struggle, painful to witness, his spirit slipped its mortal fastenings and went forth to probe the mysteries of the Unknowable. He leaves a little daughter, a wife who has hardly left his bedside, and a brother whose devotion has been more than fraternal.

The funeral will be held at the Baptist church on Wednesday afternoon—the hour to be announced later. Dr. G. M. Hodge has been sent for to conduct the funeral services. The interment will be at Eau Claire.

Mrs. Judson Kempton of Mt. Carroll, Ill., and M. B. Wyman, of Eau Claire, father of Mrs. A. C. Kempton, arrived yesterday, in time to bid a last farewell and to offer to those mostly deeply bereaved the sympathy and support that comes most acceptably from those of close kin.

## MESSAGE HAD ONE GOOD ITEM OF NEWS

President's Paper to Congress Announces the Appointment of the New Peace Commission.

Washington, Dec. 4.—McKinley's message which was yesterday afternoon read in both houses of congress, contained one important item of news. This is the announcement of the appointment of the members of the American international arbitration bureau.

There have been rumors of the president's selections for these important honors, but the president was able to keep at least one important bit of information for his message. The members of the board as announced by the president are:

BENJAMIN HARRISON, former President of the United States.

MELVILLE W. FULLER, chief justice of the supreme court of the United States.

JOHN W. GRIGGS, now Attorney General of the United States.

GEORGE GRAY, former United States senator from Delaware.

The selections are regarded as particularly fortunate. All of the members of the board are distinguished in the law.

## POPULISTS SEEK TO QUIT NEBRASKA

Leaders Plan Emigration to Indian Territory, Believing Political Hopes Are Dead.

Lincoln, Neb., Dec. 4.—The populists of Nebraska are planning to emigrate from Nebraska and cross the wilderness into their promised land in the Indian Territory. State officials who lost their jobs in the republican landslide are the leaders in the movement. They decline to remain in a state where they think that their political hopes are buried.

## FILIPINO REBELS YIELD ALLEGIANCE

Insurgent Warriors Take Oath to Support the United States in Church at Vigan.

Manila, Dec. 4.—Sunday in Vigan was a great day for the American cause. Twenty-two hundred natives of the region, nearly all fighting rebels crowded the church and took the oath of allegiance to the United States. The oath was administered by the priest. All but 500 of those sworn were bolomen. The number included the 1,200 bolomen who had previously surrendered.

## MAYRE-ELECT GOMPERS

American Federation of Labor Convention in Louisville This Week.

Louisville, Ky., Dec. 4.—The twentieth annual conference of the American Federation of Labor which meets in this city on Thursday, Dec. 6, will bring together some of the leading labor men of the world. Delegates from England have already arrived. The convention will be called to order at Music Hall Thursday morning. The convention will be in session nine days and on the final day there will be an election of officers. It is thought Mr. Gompers will be reelected president, but probably there will be changes in the other officers. An effort will be made to amalgamate all the metal workers into one large organization.

Isthmian Canal Project.

Washington, Dec. 4.—The preliminary report of the Isthmian canal commission was sent to congress today by the president. It unanimously recommends the adoption of the Nicaragua route.

## LARGE GAINS MADE BY THE W. C. T. U.

SECRETARY AND TREASURER MAKE REPORTS.

The Increase in New Members During the Past Year Reaches Over 15,000 One Thousand New Local Unions Organized—Man's Humanity to Man is Becoming More Real.

Washington, D. C., Dec. 4.—The second days' session of the national W. C. T. U. was filled with interest. Mrs. Susanna M. D. Fry of Illinois, corresponding secretary, presented a report as did Mrs. Helen Morton Barker of Illinois, treasurer, and Mrs. Callista E. Biglow of Illinois, auditor.

Mrs. Fry reported that the number of new paid up members was in the neighborhood of 15,000. Four states have the same number of members as last year, eleven lost in membership less than 1,000 all told, while the other states gained in membership. One thousand new local unions and one new state union were organized during the year.

Eighteen needy states and territories were aided by the organizing fund. Not only has the battle been pressed at home, "but the flag was followed into Cuba, Porto Rico and the Philippine islands."

Mrs. Barker's Report.

The report of the treasurer, Mrs. Helen Morton Barker, showed that twelve states had made a net gain of 500 or more in membership, and several others of from 100 to 300. Never had she been able to report such large gains and such few losses. Every state and territory, even Alaska, had sent dues. The net gain of the paid up membership was 14,467. The total receipts were \$27,286 and the expenditures \$25,189, of which \$7,609 was for salaries, the balance on hand being \$2,096.

Address by the President.

The annual address of the president, Mrs. Lillian M. N. Stevens, was heard. In summing up the year's work she said:

"Notwithstanding that we are almost daily saddened and shocked by revelations of crime and recitals of dreadful tragedy, still it is true that the world is growing kinder; that man's humanity to man is more real, more broad today than at any previous time in the world's history. It is lamentable that in the closing year of the century there should be war and famine, pestilence and massacre. We have not yet reached ideal Christianity, but the nineteenth has been the best century that the world has ever known. We confidently believe that there will be established before the twentieth century has gone far on its march an international court of arbitration, and so the day shall be hastened when there will be 'peace on earth.'"

## ROUTINE WORK IN CONGRESS TODAY

Bill Introduced in the Senate to Provide a Supreme Court for the Philippine Islands.

Washington, Dec. 4.—When the senate convened at noon the credentials of Dooliver of Iowa to fill the vacancy caused by the death of Gear were presented and the oath administered. Morgan moved that ten thousand copies of the president's Isthmian preliminary report be printed.

Stewart of Nevada introduced a bill providing for the creation of a supreme court of five members for the Philippines to be paid twenty thousand yearly.

Chairman Hawley of the military affairs committee introduced an army reorganization bill.

Pettigrew introduced a resolution calling on the postmaster general to forward to the senate all information in his possession regarding the position of the postal funds in Cuba. Adopted.

At two o'clock Senator Fry called up the ship subsidy bill and Jones of Arkansas demanded the yeas and nays on the question of consideration. In the house as soon as the journal was read Hepburn of Iowa called the case of Connor of Iowa whose credentials were rejected yesterday. He withdrew the objectionable credentials and filed a new certificate of election. Bailey of Texas explained that he only meant that the record should show the status of the matter. Connor was sworn in.

The resignation of Devries of California was read. Cannon of Illinois reported a bill from the appropriation committee providing a program for the celebration of the one hundredth anniversary of the location of the national capital. Agreed. At one thirty o'clock the house adjourned.

## POWER HOUSE IS BLOWN TO PIECES

A TERRIFIC EXPLOSION WITH GREAT LOSS OF LIFE.

Five Are Killed and a Score or More Injured in an Accident at the Northwestern Railway Station in Chicago—Last Evening—Boiler Causes Destruction.

Chicago, Dec. 4.—With a mighty rush and roar a boiler in the powerhouse of the Chicago & Northwestern Railway at Kinzie and Kingsbury streets exploded at 5 o'clock yesterday afternoon, killing five people and injuring a score or more. All traffic at the local terminal of the road was unavoidably suspended for two hours as a result of the accident. The 150 horse power metal structure which in some unknown manner caused the loss of life and consequent damage was hurled high into the air and carried a distance of nearly 100 feet. It struck the rear portion of a parlor car attached to an outgoing passenger train, destroying the coach and injuring five of the occupants, one probably fatally.

To add to the distressing circumstances of the accident the station and other company buildings within the railroad yards were thrown into darkness. The firemen and police, ably seconded by the Northwestern officials and employees, rendered the injured every possible assistance.

List of the Dead.

The dead are: August Clemann, 41 years old, section foreman, struck by boiler and instantly killed. Tony Krouse, 35 years old, fireman in powerhouse, collar bone fractured, shoulder dislocated and badly scalded; removed to county hospital and died at 10 o'clock. Henry Schnur, 18 years old, son of Fire Marshal Peter Schnur, carried down by falling walls while passing building and crushed to death. Joseph Specht, 40 years old, section laborer, struck by boiler and instantly killed. August Weiss, 56 years old, section laborer; struck by boiler and instantly killed.

Debris Falls Like Rain.

The explosion was so severe that it shook the surrounding buildings, the concussion breaking many windows. The powerhouse is a complete wreck. Only portions of the east and south walls are standing. Flying debris, bricks, stone and timbers, with pieces of structural iron work were thrown several hundred feet. Three of the men killed were section hands working on the tracks nearly 100 feet from the powerhouse. Up into the air the big boiler weighing several thousand pounds was thrown. The group of section men scattered, but three were caught by the fence lining the railroad right of way, and their lives were crushed out in an instant.

Krause, the fireman, was caught in the building and frightfully scalded and injured. He was hurried away for medical treatment, but died a few hours after the accident.

## CONSECRATE NEW CENTURY

Archbishop Martinelli to Conduct Midnight Service Dec. 31.

Washington, Dec. 4.—Archbishop Martinelli, the apostolic delegate, will participate at services to be held at St. Patrick's church in this city at midnight on Dec. 31 to consecrate the new century to God. A year ago the pope gave a special permission, with a view to wide exercise of the privilege, to sing a solemn mass at midnight on Dec. 31 to consecrate the closing year of the century and to repeat it on Dec. 31 next at the same hour for consecrating the entire new century. The ceremony, like that of a year ago, is expected to be an unusually brilliant one and most of the bishops throughout the country will probably hold similar solemn services.

## BOXERS ATTACK GERMAN TROOPS

Kaiser's Force Lost Twenty Killed and a Large Number of Wounded—Powers Near Agreement.

Shanghai, Dec. 4.—Advices from Tien Tsin say that the German force has been attacked by twenty-five hundred Boxers near Pao-Ting-Fu. The former lost twenty killed and a large number wounded. The same dispatch says that Tang Wong Huan who ordered the butchery at Pao-Ting-Fu, was decapitated at Tien Tsin yesterday.

Powers Near Agreement.

Washington, D. C., Dec. 4.—Negotiations now in progress between the powers with respect to China seem to presage a satisfactory solution of the Chinese question. Secretary of State Hay is anxious that only demands shall be formulated which China can comply with, and to his gratification the evident disposition of all the powers, even Germany, is to moderate the severe penalties imposed by the ministers in Peking. It seems to be certain that none of the Chinese will be executed, but what the punishment will be has not yet been determined upon.

New York, Dec. 4.—Eight fifteen was bid this morning for Standard oil stock but none was offered for less than twenty-five. At the present rate Rockefeller will soon be a billionaire.

## WROTE HIS MESSAGE WITH HIS OWN HAND

Painstaking Care Taken by Mr. McKinley in His Message to Congress, of 20,000 Words.

Washington, Dec. 4.—The president wrote his message with his own hand. As usual he had memoranda furnished from the several executive departments. He did not however, clap the manuscript into his message as the most of his predecessors have done with a few erasures and interlineations, but he carefully rewrote every line submitted by his cabinet ministers and the other officers of the government.

He is also in the habit of dictating the most of his messages and speeches but nearly all of this message was written in his own hand. He does not write as much as President Cleveland did. The latter seldom used a stenographer even in answering his own correspondence.

Nearly one-half of the entire message is devoted to foreign affairs. The pamphlet edition contains forty-four and one-half pages. The foreign part is a little short of twenty-two, and six pages are devoted to a reprint of his instructions to the Philippine commission. It contained 20,000 words.

## SWAMP LANDS OF THE BADGER STATE

Congress Urged to Pass Restoration Bill—An Area of 350,000 Acres to Be Recovered.

Madison, Wis., Dec. 4.—The state land commissioners—Secretary of State Froehlich, State Treasurer Davidson and Attorney General Hicks—started for Washington yesterday to aid the passage of the bill for the restoration to Wisconsin of certain large areas of swamp lands, said to be about 315,000 acres in extent. This bill has been pending since early last season, and E. C. Mullen of Oconto was in Washington a part of last winter pushing the bill on behalf of the state.

## LORD ROBERTS TO BE MADE A DUKE

Queen Victoria Will Confer the Honor Upon "Little Bob" when He Returns from Africa.

London, December 4.—A dukedom is the Christmas present that England has in store for Lord Roberts. It will be a little belated, for the announcement will not be made until the New Years honor list is issued, but the time will be singularly appropriate, for the little veteran is not expected to complete his triumphant home-coming before the end of the year.

Announcement of the intention of Queen Victoria thus signally to honor the great warrior is made positively today in the Manchester Guardian. Furthermore parliament is to be asked to vote Lord Roberts \$500,000 as a further tribute to his services to his country, says that newspaper. In court circles it is believed that the news is inspired and official.

## MAN IS HIS OWN STEPSON.

Minneapolis Man Marries Widow, Gets Divorced and Weds Her Daughter.

Minneapolis, Minn., Dec. 4.—Edward Roth, a barber, who is now in Minneapolis, has the unusual distinction of being his own stepson. Some time ago he married a Mrs. Schrock, a widow with a daughter, but the couple failed to agree, and the wife secured a divorce on the grounds of cruelty. Roth is now married to Madeline Schrock, daughter to his former wife, causing a complication of family relations, which makes his first wife his mother-in-law and himself his own stepson.

Edward P. Ne-cross has returned to his studies at the Northwestern Medical College, Chicago.

## AWFUL SLAUGHTER BY THE BOXERS

MASSACRE IN SHAN SI PROVINCE HEADED BY VICEROY.

Catholic Bishop and Nuns Murdered in Cold Blood—Governor of Shan Si Summons Missionaries to His House on Plea of Protection and Kills Them with Poison.

Berlin, Dec. 4.—A special dispatch from China to the Volks Zeitung reports a fearful mission slaughter in the province of Shan-Si. The first victims the dispatch says were a Catholic priest and his coadjutors and four European priests, Franciscans, Italian and French.

The governor invited them to his house pretending to give them better protection; but when they arrived their hands were tied.

All Were Butchered.

Then the governor himself poisoned them all. Next the governor went to the Bishop's residence with a number of soldiers and seized six Marcelline sisters. He promised them money and distinguished husbands if they would renounce Christianity, which offer they unanimously rejected.

Thereupon the governor poisoned them and also a number of Chinese priests, thirty Chinese sisters, and two orphans from 3 to 16 years of age. Mr. and Mrs. Atwater and their two little children, Mr. and Mrs. C. W. Price and their son, all of the American board; Mr. and Mrs. Lagren of the Swedish, and Miss Eldred, an Englishwoman, were butchered.

Yu Hsien Sent a Silken Cord.

The story of these murders directly implicated Yu Hsien, then governor of Shan-Si. As announced in the Peking dispatches of Saturday last, members of Li Hung Chang's staff say that the Chinese emperor will probably send Yu Hsien a silken cord, which is an intimation that he must hang himself.

Awful Massacre Last June.

A number of the reports have been published of the June massacres in Shan-Si, some of the details being too horrible for publication. Men, women and children were butchered. Fifteen seminarians, who had hidden themselves in a cistern, were, the dispatch says, tied to stakes and forced to drink the blood of the first victims. They were then killed.

A Chinese priest and two Christians who attempted to escape were caught and put in a small hut where they were burned.

## AUSTRIA IS ALSO CLOSED TO KRUGER

Emperor Francis Joseph Pleads a Previous Engagement—Oom Paul Sad and in Tears.

London, Dec. 4.—"In response to a confidential inquiry as to whether Mr. Kruger would be welcomed here," says the Vienna correspondent of the Daily Mail, "a polite reply was returned to the effect that Emperor Francis Joseph had made other dispositions for the next few weeks."

Paris, Dec. 4.—A special dispatch from Cologne says Mr. Kruger, after he had received Emperor William's telegram, spoke as follows to a deputation styled the "Friends of the Boers."

"I hope with all my heart that the circumstance, which prevents his majesty from receiving me today will become more favorable later. I shall never cease to have confidence in the spirit of justice of the emperor, who, without knowing me four years ago, sent me significant encouragement. I shall stay some time at the Hague and then renew my request, and this time the emperor will not refuse."

Mr. Kruger was very sad and afterward retired to his department in tears.

## HOT SCRAMBLE FOR GOVERNMENT LAND

Two Thousand People Join in the Rush on the White Earth Reservation in Minnesota.

Crookston, Minn., Dec. 4.—Two thousand people joined in a scramble to secure claims in the ceded towns on the White Earth reservation. During the night the efforts of the police were necessary to keep the crowd in order and prevent a break in the line.

Six women who spent the night near the land office participated in the scramble and but little courtesy was shown them except in case of an eighty year old woman. Thirty thousand acres are to be disposed of to actual settlers at \$1.35 per acre. The most desirable claims are already filled.

## EDGERTON MOURNS DEATH OF DR. LORD

HIS SKILL IN THE SICK ROOM  
WILL BE GREATLY MISSED.

**Brief Biography of the Best Known and Best Loved Man in Northern Rock County—Tobacco Coming Rapidly to the Warehouse Men—Edgerton News and Notes.**

Edgerton, Dec. 4.—The news of the death of Dr. James A. Lord was quickly passed from mouth to mouth and house to house throughout this city Saturday, and there was universal sorrow for the sufferer gone and sympathy for the family left. For many months he had been confined to his bed with Bright's disease. He had all the time been a patient sufferer until death came to his relief at 11 o'clock Saturday, Dec. 1st, 1900. In the passing away of Dr. Lord the angel of death has stricken from our midst one of the most highly honored and universally respected of Edgerton's citizens and the family is bereft of a loving husband and an indulgent father. The medical profession has lost one of its most ardent workers and a physician whose attendance and counsel had a calling far beyond the local range. Personally, Dr. "Jim," as he was called, had qualifications which few men possess, and in social circles he was always a favorite. An attractive presence, a smiling countenance and a greeting of good cheer were among his gifts, and his friends and admirers were among all classes. To write a just memoir of a life so noteworthy as Dr. Lord's requires more time and space than is allotted to the average newspaper writer.

James A. Lord was the son of Simon L. and Mary M. Lord, and was born in Edgerton July 22, 1858. His boyhood days were passed in the village and he attended the public schools here. After graduating he was sent to the college at Epworth, Ia., where his education was completed. Deciding to follow the profession of his father, that of physician, he went to Chicago and was graduated from Rush Medical College in 1878. Upon the completion of this course he returned to Edgerton and took up the practice of medicine, which was continued until last spring, when failing health compelled his retirement from practice.

In 1881 he was married to Miss Ida Williams and of this union one son, Karl, was born, now aged 16 years. Besides the wife and son he leaves four sisters and two brothers, Mrs. George McGiffin, Mrs. Ware, Misses Emily and Nellie Lord, all of this city, and Edwin Lord of Manitowish, and William Lord of St. Paul, Minn. In the twenty-two years of professional work in this city Dr. Lord had acquired a practice which many a physician has failed in a lifetime to secure, and his aid and skill in the sick room for miles and miles about will be greatly missed.

He was a member of the Masohic, Knights of Pythias, Modern Woodmen and Home Forum orders and carried a large amount of life insurance. He had a beautiful home in Park Place, and seemingly was blessed with all that goes to make a pleasant life and happy surroundings.

The funeral took place from the home Monday afternoon at 2 o'clock. Rev. Henry Sewell officiating. Interment was made in Fassetts cemetery.

Receiving tobacco is the order of business with most of the warehouse men in this market at present, and there seems to be trouble ahead for both the grower and the dealer. The crops thus far received show up an unmerchantable leaf to quite an extent, having been damaged by shed burn and pole rot. Some crops, however, that were properly cared for, have turned out a nice leaf and are received without a kick.

The dealers are using a clause in warehouse receipts which was never before inserted. It is this: "Held back on account of damage until crop is assorted." This means that the grower gets paid for all sound tobacco, and that portion of the crop which is not sound will be paid for after it has been run over the tables. No doubt that a great deal of difficulty will arise during the delivery this season.

T. B. Earle has been in the northern part of the state looking after his purchases there.

## NEWS AND GOSSIP FROM MILTON TOWN

Union Thanksgiving Services at the Advent Church Largely Attended—Social and Personal.

THE GAZETTE AGENCY, W. W. CLARKE, Manager, Milton, Wis., Dec. 3, 1900.

The union Thanksgiving services at the S. D. B. church were largely attended, the principal business houses being closed from 10:30 to 5 o'clock. The sermon by the Reverend T. W. North was an able presentation and received high commendation. A collection for the benefit of the Kings Daughters was taken and the congregation united in singing America at the close of the service.

The Milton football "scrubs" played their first and last game of the season with the Junction team on Thanksgiving day and won by a score of 5 to 0, and naturally they feel pretty gay.

Misses Eleanor M. Brown of Elgin, Ill., and Bette Leonard of Evansville enjoyed their Thanksgiving vacation at home.

## Difficult Digestion

That is dyspepsia.

It makes life miserable.

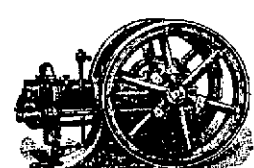

Its sufferers eat not because they WANT to—but simply because they MUST.

They complain of a bad taste in the mouth, a tenderness at the pit of the stomach, a feeling of puffy fullness, headache, heartburn and what not.

Hood's Sarsaparilla cured Joseph F. Laine, Flanagan, Ky., who writes: "I was troubled with dyspepsia for a number of years and took medicine that did me no good. I was advised by friends to try Hood's Sarsaparilla which I did and it put my bowels in perfect condition, gave me strength and energy and made me feel like a new person."

**Senator Davis' Expert Knowledge.**  
In no respect will the nation's loss through the death of Senator Davis be more irreparable than in his work as chairman of the Committee on Foreign Relations. During the last session of congress there were a number of treaties hung up because of objections raised against them in different quarters. These treaties are among the most important measures to come before congress at its coming session. It so happens that Senator Davis was the only man thoroughly familiar with their intricate workings. He had at his tongue's end a fund of expert knowledge which no other member can acquire in many months. This fact made him the most important man in the senate at this juncture. There is the Hay-Pauncefote treaty. There are the French and Argentina reciprocity treaties, which ought to be ratified without further delay, but which are opposed by certain interested parties whose objections can be effectively met only by an encyclopedic knowledge of details such as Senator Davis alone possessed. Several other treaties of reciprocity, commerce, and extradition on which action was postponed until after election are now left in a precarious state by the death of the only man who was thoroughly familiar with them. Senator Frye understands the commercial side of these questions, and Senator Morgan is familiar with the Hay-Pauncefote treaty, but neither possesses the skill in international law shown by Senator Davis, nor is any other member of the committee able to deal with the details of the reciprocity treaties. It is almost inevitable that some of these treaties should suffer for lack of the Minnesota senator's expert knowledge.—Chicago Tribune.

**YOUR BODIES ARE TEMPLES**

You believe that statement. But you only realize in part the obligations implied by it. Do you keep that temple of the body clean? If not, the defilement attaches to every service of the temple. Disease of the stomach and other organs of digestion and nutrition, affects the mind as well as the body. The dull mind stupified by poisonous gases, enters on its service without desire, and accomplishes it without delight. A healthy body and a clear mind result from the use of Dr. Pierce's Golden Medical Discovery. It removes the clogging and poisonous impurities from the stomach, stimulates the flow of the juices necessary to digestion and increases the blood supply in quality and quantity. The "Discovery" is strictly a temperance medicine and contains no alcohol or whisky, neither opium, cocaine, nor other narcotic.

"I had suffered from indigestion and only those who have suffered from it know what it really is," writes Mrs. M. J. Fagan, of 1613 East Genesee Street, Syracuse, N. Y. "I had had severe attacks of headache and dizziness with cold hands and feet; everything I ate distressed me, my bowels were constipated and I was growing very thin and nervous. I cannot half express the bad feelings I had when I commenced taking Dr. Pierce's Golden Medical Discovery. I took nine bottles of the 'Discovery.' I commenced feeling better with the first bottle and kept on improving. Now I am so greatly improved in health my friends often speak of it."

THE STATE BOARD OF CONTROL

Wisconsin enjoys an enviable reputation for the intelligent management of her penal and charitable institutions. Other states have watched developments with increasing interest, and Iowa two years ago, adopted practically the Wisconsin system while Illinois is now considering the question with a view of disbanding their State Board of Charities and Corrections, and establishing a board of control. Pennsylvania sent a legislative delegation to Wisconsin on a tour of investigation three years ago and they took back a favorable report.

The State Board of Control has direct charge of the nine state institutions, and has supervision over the twenty-seven county asylums, as well as of all the jails and lock-ups of the state, also the Soldiers' Home at Waupaca. The care of the chronic insane in county asylums is not only economical, but it makes the two state institutions at Mendota and Waubesa, hospitals for the treatment of acute cases, rather than asylums. As a result from twenty-five to thirty per cent. of the inmates are sent home cured after a reasonable time. If the 4,000 insane of the state were confined in two large asylums, as is the case in many neighboring states, these results would not be possible.

The Board is able to save the state money in the purchase of staple goods by contract, for the various institutions, and the present board has been very successful along this line. The mission of the board, however, is broader than the simple buying of supplies, and this the board thoroughly understands. The policy to be pursued, and the improvement to be made, are carefully considered. The board is in close touch with the work in other states, and thus have an opportunity to adopt methods after they have been tested, for the bettering of the state work. This is frequently done, and as a result, Wisconsin is classed in the front rank today, so far as the management of her state institutions is concerned.

The board is appointed by the governor, and as fast as vacancies occur the appointment is made for five years, subject to the confirmation of the senate.

The personnel of the present board is strong, and it is rendering the state good service. Judge Wm. P. Lyon of Madison, is the president. A man of sound judgment, and conservative opinions, he has been a valuable advisor. While well advanced in years his physical health is good, and his mental faculties unimpaired. Governor Scofield fully appreciated his worth, and appointed him for a second term last spring.

George W. Bishop of Rhinelander, is vice-president. Mr. Bishop is in the prime of life—a hard worker, has a quick and intelligent grasp of situations, and is a very efficient member.

E. R. Petherick of Milwaukee, is the only democrat on the board. Mr. Petherick is a large hearted man, full of generous impulses, and is a general favorite in all of the institutions.

N. B. Treat of Monroe, is a successful business man, and he has brought to the board the same spirit of thrift and energy for which he is noted. He is a close buyer, and is as careful in handling public money as he is with his own funds.

Andrew G. Nelson, of Waupaca, is also a successful business man. Mr. Nelson is unassuming, but possesses rare good judgment and tact in dealing with men. He is recognized as a valuable member.

The secretary of the board is M. J. Tappins of Lancaster. Mr. Tappins is the busiest man in the capitol building and one of the most efficient. All of the books for the various institutions are kept in his office. The work is very laborious, but Mr. Tappins has proved himself equal to the task, and is the right man in the right place.

The state has a good system and a good board. The new governor will find his household in good running order.

About the time the oleomargarine bill is passed and becomes a law, it will be discovered that the 3,000,000 dairy farmers, who are financially interested, have made a ten-strike, while the 20,000,000 poor people who can't afford creamery butter will be eating bread without anything on it. The bill contemplates class legislation of a pronounced type.

The Boer farmers are looking to America with a view of locating. The Northern Pacific and other roads are offering free transportation, and efforts will be made to locate small colonies in various parts of the west. If Oom Paul lives a few years he may

find the most of his old subjects on American soil.

Chas. T. Yerkes, of Chicago, New York and London, is organizing an American syndicate, to build and equip his Charing Cross railway. England will have nothing invested, and consequently will lose nothing but an opportunity that it took an American to discover.

The Northern Pacific railroad is keeping pace with the progress of the age. The line is being equipped with long distance telephones for train service use. The experiment has been tested and is successful.

President Kruger's reception in France is as misleading to the old gentleman as was Mr. Bryan's reception during the campaign. The masses always turn out to a parade, but the small boy represents the only class that follows it up.

Football continues to be a destructive weapon. It is a source of regret that its victims cannot be added to the list of fallen heroes, and its army of cripples placed upon the pension rolls.

The nation has sustained a great loss in the death of Senator Davis, of Minnesota. He was a man of marked ability, and a statesman of recognized leadership.

Mrs. Mary E. Lease, of Kansas fame, has sued for a divorce. Mr. Lease will not oppose her. The usual crop of disturbances, for which Kansas soil is noted, has been prolific in the Lease household for many years.

If congress will recognize the fact that trusts are not a political question, and ignore it and get down to business, the short session may amount to something more than a debating society.

R. G. Dun, of the Dun agency, amassed a fortune by buying and selling information on credits and commercial standings. He died a few days ago, worth \$2,500,000.

The Nicaragua Canal Bill, already passed by the house, will be one of the first bills considered by the senate. A treaty has just been signed, which gives this country full control of the Nicaragua route.

The question that is just now agitating Washington society is whether Mrs. George Dewey shall be the first lady of the land. Dewey isn't in it.

The democratic minority in the house, are preparing to fight the army bill. There's nothing like being "agin the government" on all propositions.

Mrs. Ripley and Miss Ruth Culver Entertained Last Evening at Their Home on Court Street.

Mrs. Ripley and Miss Ruth Culver entertained about sixty ladies last evening at a 5-o'clock tea at their pleasant home, 354 Court street. Begonias, chrysanthemums, ferns and vines were used with a lavish hand and produced a charming effect. A carpet from the street to the door protected the pretty gowns from the slush on the sidewalk, and within all was hospitality and good cheer.

After supper guessing contests occupied a part of the time. Mrs. Bristol, who exhibited the greatest cleverness in this respect, was awarded a handsome decorated cup and saucer. During the evening a vocal solo was delightfully rendered by Mrs. A. O. Wilson. This social entertainment is the fifth of a series given by the hostesses.

Sweet, Clean and Simple Story. "The Tyranny of Tears" which will be at the Myers Grand on Saturday evening, December 8, is one of the best examples that a sweet, clean, simple story of the ordinary happenings of life, when told in a masterly way, is more satisfactory to the public than all the speculative problems or unsavory phases of life which some authors think it is necessary to give "strength" to their work. During the long run that Charles Frohman gave it at his Empire theatre in New York, it was seen by thousands of all classes of people, to whom it appealed as a page from their own lives, but most artistically and humorously presented. The woman who gains her point through the aid of tears is known to everyone, and the lesson conveyed in Mr. Chambers' play is one all admit and accept, while smiling at the manner in which it is presented to their notice.

## ARE SKILLED IN CULINARY ARTS

Ladies of Christ Church Served a Splendid Lunch in Guild Hall This Afternoon.

The busiest place in Janesville to-day was the Guild hall of the Christ church where a noon lunch was served, and a pre-Christmas sale of fancy and useful articles conducted. The menu was attractive and covered a wide range. The ladies of Christ church enjoy the reputation of being especially skilled in culinary arts and if they can always keep up to the high standard of today it is a merited distinction.

The lower floor was crowded from before noon till nearly 2 p. m., and the waitresses, some of the most attractive society ladies in the city, did a hand office business.

The fancy bazaar was held upstairs, and the display was highly creditable. One corner was devoted to dolls, one to Mexican drawn work, one to confections and one to aprons of high and low degree.

The central table held sofa pillows, pictures, fancy soap bags and baskets with a multitude of seductive little articles dear to the heart of the feminine soul. Nearly every lady attending purchased one or more articles and the promoters of the enterprise cannot fail to realize a gratifying sum from both bazaar and luncheon.

## STEEL BRIDGE SPANS ARE BEING PUT UP

### LARGEST EVER SEEN IN THIS PART OF THE COUNTRY.

Enormous Castings for the Janesville & Southeastern Railway Crossing of the Rock River—Through Trains Will Be Running on or Before January 1, 1901.

One of the largest steel spans ever brought to this city arrived here yesterday for the east side of the new bridge across the channel of the river at Monterey on the line of the Janesville and Southeastern railroad. The entire span is one hundred and fourteen feet in length, eight feet high and weighs eighty-four thousand pounds.

This immense span was loaded onto three flat cars and bolted and traced to make it perfectly solid. It was taken down to the bridge this morning where it will be placed in position.

It will be quite a sight when the company takes the span from the cars and swings it into position on the abutments. Preparations for receiving the span have been going on for several days. When the span for the west side arrives and is placed in position and the two bound together the gigantic undertaking of running a track from Snipe hill to the south end of the C. & N. W. company's bridge at Monterey will be complete.

This piece of track has been one of the most costly on the new line. In the first place the track had to be carried on trestle work from Snipe hill across the river, large concrete abutments had to be built in about twenty different places and the places between the abutments where the piling had been built, filled in with sand, making a solid road bed.

Finally a solid steel bridge has to be built across the main channel of the river. Something over one hundred thousand car loads of gravel were used in making this fill, a large steam shovel, two engines and four patent dump cars being employed at the work almost the entire summer and fall. The Janesville and Southeastern certainly intends to have a fine ride and during the last summer no money has been spared where it would benefit the road.

The calculations were that trains would be running over the line by December 15th and through trains by January 1st. The cold weather coming on froze the gravel so that it could not be used for ballast and the work was closed down until spring, when in a short time the road can be put in running order.

Robert W. MacLean, formerly of this City, Lost a Lot of Money in Mexico.

Robert W. MacLean, formerly of this city, but now of Chihuahua, Mex., where he conducts the Robinson house was the victim of a wholesale robbery in which he lost \$1,000 in Mexican money and between \$400 and \$500 in gold.

Being in Mexico, Mr. MacLean does not have much faith in the banking institutions and prefers to be his own banker and take his chances on losing his money by robbers, to losing it in some unsafe bank. In his hotel business the often has considerable sums of money on hand and for safety kept it in a heavy iron box in his bed room.

At the time of the robbery the sum of money in the box was unusually heavy, it being near the end of the month and Mr. MacLean always settled up his bills on the first and had laid by enough money to settle with.

Some one around the hotel was evidently acquainted with Mr. MacLean's way of doing business and waited until they were reasonably sure that the box contained quite a sum of money before trying to get away with it.

Their plans were carefully laid and were carried out without a hitch, for they succeeded in getting away with the box and not being seen. On the day that the robbery was committed Mrs. MacLean was asked by the clerk in the hotel office to get him some change. Mrs. MacLean went to the iron box and got the change and everything was all right.

A short time afterwards, possibly twenty minutes or a half-hour, the clerk wanted some more change and when Mrs. MacLean went to the box to get it she found it gone, and no trace left of where it had been taken to. She immediately gave the alarm and a hunt was instituted at once for the missing box, but without success.

Mr. MacLean says that he thinks that the job was done by Americans, as the Mexicans are too cowardly to steal a large amount, but will take any small thing that they can get their hands onto. The country around Chihuahua is the home of a good many lawless characters that have been driven out of the United States and who are on the lookout for just such chances as this one.

Mr. MacLean's brothers in this city say that Bob always carried considerable money around with him rather than bank it. He had no faith in banks and especially the kind that they have in Mexico.

Noted.

Christ church sale continues this evening. Auction.

Piece of Statuary in Edgerton Ware

Present Made to the Janesville High School by Mrs. L. H. Towne—

An Interesting Group.

A recent acquisition to the art property of the high school is a piece of statuary, in Edgerton ware, the gift of Mr. L. H. Towne, who is connected with the Edgerton Pottery Works. The piece in question is a group about twelve inches high, representing a jester teaching Cupid how to shoot. The color is a deep cream and the modeling is excellent.

The jester has the cap with ear flaps, the pointed shoes and the quizzical smile that indicates his calling. The little rascal between his knees years a very serious expression and is paying strict heed to the words of his instructor. His bow and arrow make up the sum total of his attire.

The group is the work of Miss Minor, who it will be remembered, executed a statue of "Forward" for the World's Fair, which now adorns Capitol Park, Madison. The lady was at one time in the employ of the company at Edgerton. Mr. Towne's gift has additional value from the fact that it is the work of a young Wisconsin woman, it arrived Saturday and will be presented to the school in due form.

Another fact in connection with the gift has significance. The Edgerton Pottery works is the only one of the kind in the United States. About a year ago, M. Samson, the Belgian modeler, who was the artistic heart and soul of the enterprise, returned to Europe, and no suitable successor has been found. Consequently the works have shut down or will soon do so, and the stock on hand is being sold out.

LARGE WAREHOUSE NEARLY COMPLETED

The large warehouse being built by Soverhill & Porter on West Milwaukee street is rapidly nearing completion and will be ready for occupancy in a week or two. When completed it will be one of the most complete and unique warehouses in the state, every department on the ground floor, storage rooms, sorting rooms, bundle rooms and office all being on the main. The building is heat with steam and the storing of cases in tiers being done with a traveling block and tackle that runs the entire length of the building.

The immense warehouse being built near the C. M. & St. P. R. R. station by J. L. and M. F. Greene is also being rushed to completion the framework for the three upper stories now being in position. If the weather keeps warm the roof will be in place in a short time and the work of finishing the interior will be much easier.

Her Mind Unbalanced.

A commission composed of Drs. Plfield and Pember yesterday examined Miss Augusta Bass, daughter of Mr. and Mrs. Fred Bass, as to her sanity. The doctors found her mind unbalanced and recommended that she be sent to the state hospital at Mendota. Miss Bass has been studying the workings of Christian Science and was not fully able to grasp it. The worry caused her mind to give way.

For real swell styles in Automobiles, large fur collars, wide strap shoes, rich auto hats, and box coats relieved with some peak affect.

In addition with fur collars and other accommodations, both of which guarantee we show a variety in several colorings; on a pretty, close fitting jacket to be worn with a heavy skirt. The big store is the place to come.

Always something new to see here. J. M. POSTWICK & SONS.

## KING AND PEMBER BUY A DRUG STORE

Peoples Store on the Corner of Main and Milwaukee Streets, Changes Hands.

The Peoples' drug store, at the corner of Milwaukee and North Main streets has been sold by the owner, W. H. Palmer, to George E. King and Dr. J. F. Pember. These gentlemen already own one drug store at the corner of West Milwaukee and Jackson street and the new store will be run by the same management. Negotiations for the sale of the property have been pending between the parties for some time but no understanding could be reached that was satisfactory to all concerned. Mr. King removed to Chicago on the first of October and entered the Northwestern Medical college to pursue the study of medicine. He returned to Janesville to spend Thanksgiving with relatives and while here the subject of buying the property was brought up and a proposition that was satisfactory to all was made and accepted and the deal closed at once.

Mr. and Mrs. King returned to Chicago to make arrangements to return to this city to live. Mr. King will assume the active management of both establishments. His many friends will welcome him back to his old home.

STILL LOOKING FOR A CLUE.

Police Think a Professional Got That Sealskin Cloak at Assembly Hall.

The police are still looking for a clue which will lead to the detection of the party or parties that took Miss Addie Keenan's seal skin cloak from the cloak room at the Assembly hall the night of the Golf Club party.

A great many theories have been advanced and many improbable stories told. In every case where a story has been run down it was found to have no foundation. The police are of the opinion that the party that took the cloak is an old hand at the business and entered the cloak room and selected the best garment to be found.

People were constantly passing to and from the cloak room into the hall, but the thief took no chances of being caught unless the owner of the cloak should come in. If the thief was a woman and well dressed no one would question her right to be in there for fear that she might be the guest of some one present and might give offense to them.

A seal skin cloak is not the easiest thing in the world to dispose of and the police have hopes of locating it in some of the pawn shops of the neighboring cities.

**Methodists for Hanging.**  
Cincinnati, O., Dec. 4.—Methodists of Cincinnati are discussing the advisability of agitating in favor of laws fixing capital punishment for fiendish assaults similar to that of Gibson of Kentucky, who tortured his infant step-daughter to death. The Western Christian Advocate, the official organ of the methodists of the west, in its issue just out, under the caption, "The Burning of the Colorado Negro," says editorially: "In that state capital punishment has been abolished. This awful occurrence has called an almost unanimous demand for its restitution. Ravishers should everywhere be executed. The gallows is none too good for such wretches as this Colorado fiend."

**No Successor for Davis Yet.**  
St. Paul, Minn., Dec. 4.—Gov. Lind announced today that he had not yet decided on an appointment to the vacancy caused by the death of United States Senator Davis and that he was not likely to make such an appointment today. Gov. Lind would not admit the position had been offered to Associate Justice Collins and said he had not heard from former Congressman Towne for some days.

**Crown's Big Legal Victory.**  
London, Dec. 4.—The court of appeals has rendered a decision upholding that of a divisional court in the suit of the attorney-general versus the Jewish Colonization association. The estate and succession duty upon the death of Baron Hirsch de Gereuth were at issue. The crown by the decision gets upward of \$1,250,000.

**Panther Eats Little Girl.**

**Alleged Effort to Kill Family.**  
Chicago, Dec. 4.—Mrs. Charles H. Blow, wife of a former state game warden, charges her husband with having attempted to chloroform her and her three children and with turning on the gas so that suffocation would finish the work. She says the attempt was made Thursday night, and that until last night she and her children were so sick from the effects of the drug and the gas that they could not leave the house. She reached the Rawson street police station yesterday and swore out warrants against her husband, charging him with an attempt to commit murder. The police are searching the city for him. Mrs. Blow asserts her husband quarreled with her because she would not support him. She has feared for some time that he would try to kill her, she says, as he has been out of work and morose in consequence.

**Lieut. Hobson Is Better.**

**Man Murdered by Fire.**  
Dallas, Tex., Dec. 4.—Pete Bain, former deputy sheriff of this county, was burned to death this morning in a most mysterious manner, and two men who were present when the tragedy took place have been taken out of town to avoid lynching by infuriated citizens. That Bain was murdered there seems little doubt, as he was found in a chair in the back room of a saloon with his clothes, which had been covered with turpentine, all aflame. He was screaming for help, but the two men arrested, John Chapman and E. D. Faulkner, it is claimed, refused to make any effort to extinguish the flames.

**Murderer Is Lynched.**  
Hackensack, N. J., Dec. 4.—John Gambola of Cherry Hill, who murdered Frank Tuscanti here yesterday, was at once attacked by several friends of his victim and fatally stabbed. Gambola and his brothers, James and Solomon, came to Hackensack to visit friends and spent the afternoon in drinking wine. By evening a dozen or more men were in a highly heated condition. A quarrel arose and Gambola stabbed Tuscanti twice in the neck, the latter dying in a few minutes.
